

THE RENO UNIVERSITY.

The air of Reno is filled with charges against the State University students and the way in which the institution is conducted.

Some of these charges are of such a nature that they ought not be made unless there is the fullest, possible proof. It is quite evident that there is a screw loose somewhere, and many Reno people decline to send their children there, but send them to California instead.

The new President seems to have no discipline whatever and the tone of the Institution is lower than ever.

Nevada has spent a good deal of money and the tax-payers of the State have tried hard to have some pride in the State University, but the Institution seems to be passing from bad to worse and was never worse than now.

The present Board of Regents ought to investigate the matter, and find out what is the matter, and endeavor to so reform the general conduct of the University until the tax payers who support it, can feel that it is really an educational institution.

EDITORIAL NOTES.

The Kansas City Star manifests its unhappiness in this backwoods style: California appropriated \$300,000 for an exhibit at the World's Fair. There is a certain munificence about the people of the Golden State which never fails to manifest itself, whether in the matter of purchasing a seat in the United States Senate, a scheme to advertise the resources of the State, the founding of institutions of learning, or what not.

The Journal is informed by J. M. Sanford that several Churchill county farmers have ploughed up their alfalfa fields this Spring and sowed them with barley. The heavy cattle losses in 1890 lessened the demand for hay, so they are trying other crops this year. In a few years, when the ranges in the eastern part of the State are restocked, they will raise alfalfa again.

The quarrel over the gubernatorial office in Nebraska resulted in a decision for Thayer the old incumbent. Boyd beat him at the polls but was not a citizen.

Boyd's ineligibility consists in the fact that his father, who was a native of Ireland, failed to ever perfect his citizenship in this country, and thus his son is not an American citizen.

Wolfs periodic comet was rediscovered early yesterday morning by Mr. Barnard at the Lick Observatory. This comet was discovered by Dr. Max Wolf of Heidelberg Germany, on the 17th of September 1884. Its period is between six and seven years. This is the sixteenth comet discovered by Mr. Barnard.

Reno people are quite astonished that the Australian ballot did not result in greater complications in this city.

It will probably cause a good many head-aches when it reaches Reno but in a city of intelligent people like Carson, there cannot possibly be any trouble.

The Presidential banquet at San Francisco at twenty dollars per plate did not pay the bills and the reception committee are now engaged in rustling up the shortage. The banqueters evidently chambered too much "extra dry."

Reno is considerably excited over a proposition on the part of the church people to enjoin the Minstrel performance on Sunday evening. The general verdict is that a show would help liven up the town.

Mr. Cleveland's chances may be said to be looking up now that the New York Herald, shows signs of "going back" on him. The Herald is a great newspaper, but its editorial support is a "hoodoo" that no public man has ever survived.

The rain appears to have been quite general all over the State.

THE ST. CHARLES HOTEL.

The Two Popular Hotels, the St. Charles and Muller House, Are now being run under one management.

And known as the St. Charles.

The accommodations and table will be of the best, and the Bar stocked with the best Wines, Liquors and Cigars in the market.

GILBERT BRIGGS, Prop. may6

THE GREAT

HOUSEHOLD NECESSITY!

Ladies, Have You Seen It?

WHAT IS IT?

The Perfection Flour Bin and Sieve, an article that every house keeper should have. A perfect receptacle for flour; an aereator and sifter. It is way ahead of anything you have in your house except the baby. Made of Tin, the best material for the purpose in the world, and the cheapest. Try one. It has a drawer at the bottom to receive the sifted flour. It makes the flour light and improves it in quality. Satisfaction guaranteed.
